

No.	Name	Description	Priority (1 - highest, 3 - lowest)	Rationale	Author	
User Accounts & Access						
1	Account Creation	The user shall create an account with the following:	1	Create tailored experiences, manage user specific data, and increase security.	Darius	
1.1	Username	-Username (School or personal email)				
1.2	Password Reset	-Password (8-24 characters)				
1.3	Confirm Pass	The system shall require users to confirm their password during account creation.	1	Password confirmation reduces account setup errors.	Reeko	
2	Account Authentication	The system shall authenticate users using their username and	1	Authentication ensures only authorized users access accounts.	Reeko	
3	User Login	The system shall allow users to log into the system.	1		Reeko	
4	Password Reset	The system shall allow users to reset their password.	2	Password recovery prevents users from losing access when they forget credentials.	Reeko	
5	Profile management	The user shall be able to edit their personal profile to include:	2	Personal profiles allow for data and progress to be saved, tailor content to the user, and store preferences which boosts user engagement.	Darius	
5.1		-Name and profile picture				
5.2		-School, major, and graduation year				
5.3		-Course work, projects, and work experience				
5.4		-Certifications				
5.5		-Resume upload (PDF)				
6	Security	The system shall protect user data using encryption.	1	User data needs to be protected to avoid data loss and system security breaches.	Darius	
User – Interview Practice						
1	Topic Selection	The system shall allow users to select interview questions by topic.	1	Topic filters help users focus on specific subject areas they want to improve.	Reeko	
2	Question Answering	The system shall allow users to answer interview questions.	1	Users must be able to submit responses to practice interview skills.	Reeko	
3	Question Type Selection	The system shall allow users to select interview questions by question type	1	Question type filters enables users to focus on specific interview skills they want to practice.	Jaden	
4	Hint Request	The system shall allow users to request a hint while answering a question.	2	Hints help users recall concepts without revealing full solutions.	Reeko	
User – Feedback & Progress						
1	Post-Answer Feedback	The system shall allow users to view feedback after answering a question.	1	Feedback helps users understand mistakes and learn correct approaches.	Reeko	
2	Progress History	The system shall allow users to view their progress history.	2	Progress history allows users to track improvement and stay motivated.	Reeko	
3	Question Bookmarking	The system shall allow users to bookmark interview questions.	3	Bookmarks help users save challenging questions for later review.	Reeko	
4	Completion Status Tracking	The system shall track the completion status of interview questions for users.	2	Tracking completion status helps users to monitor current progress for questions and indicate questions that need to be completed.	Jaden	
User – Community Interaction						
1	Upvote Solutions	The system shall allow users to upvote solutions.	2	Upvotes help surface high-quality solutions and encourage community engagement.	Reeko	
2	Flag Content	The system shall allow users to flag inappropriate content.	1	Flagging supports moderation and helps maintain a professional environment.	Reeko	
3	Networking	The user shall be able to network with other users by:	3	Making connections allows for competition and cooperation, boosting user engagement.	Darius	
3.1		Sending connection requests.				
3.2		Accept or decline requests.				
3.3		View connection list.				
3.4		View mutual connections.				

Contributor – Question Creation						
1	Question Submission	The system shall allow contributors to submit interview questions.	1	Contributors are responsible for supplying interview questions, which are core content for the system.	Reeko	
2	Edit Submission before Approval	The system shall allow contributors to edit submitted questions before approval.	2	Allowing contributors to edit interview questions before approval helps to boost question quality before final review.	Jaden	
Contributor – Submission Tracking						
1	Approval Status Viewing	The system shall allow contributors to view the approval status of their submissions.	2	Contributors need visibility into whether their questions are pending, approved, or rejected.	Reeko	
Administrator – Access & Control						
1	Administrative Dashboard Access	The system shall allow administrators to access an administrative dashboard.	1	Administrators need a central interface to manage system functions.	Reeko	
2	System Statistics Viewing	The system shall allow administrators to view system-wide statistics.	3	Usage statistics help administrators understand system adoption and performance.	Reeko	
Administrator – Question Management						
1	Question Approval	The system shall allow administrators to approve contributor-submitted questions.	1	Approval ensures interview questions meet quality and relevance standards.	reeko	
Administrator – User & Contributor Management						
Administrator – Moderation & Oversight						
1	Administrative Privileges	Administrators shall be able to:	2	Admins ensure the stability, security, and operation of the system and it's users.		
1.1		Manage users and contributors				
1.2		Remove content				
1.3		Suspend or delete accounts				
Gamification – Consistency & Motivation						
1	Practice Streak Tracking	The system shall track the number of consecutive days a user practices interview questions.	2	Tracking streaks encourages users to practice consistently and build long-term study habits.	Reeko	
2	Streak Reset	The system shall reset a user's practice streak after a missed day of activity.	2	Resetting streaks reinforces consistent participation without blocking progress.	Reeko	
Gamification – Rewards & Recognition						
1	Achievement Badges	The system shall award badges when users reach predefined milestones.	3	Badges motivate users by recognizing progress and accomplishments over time.	reeko	
2	Points for Question Completion	The system shall award points when users complete interview questions.	3	A points system adds a game-like incentive that encourages continued engagement.	reeko	
3	Streak Bonuses	The system shall award bonus points for completing tasks (e.g., questions, lessons) on consecutive days.	3	Encourages daily habit formation and reduces user churn.	reeko
